

Snapshot 2004

Montana's Workforce Development System

Produced by:
The Governor's
State Workforce Investment Board
Judy Martz, Governor
Haley Beaudry, Chair

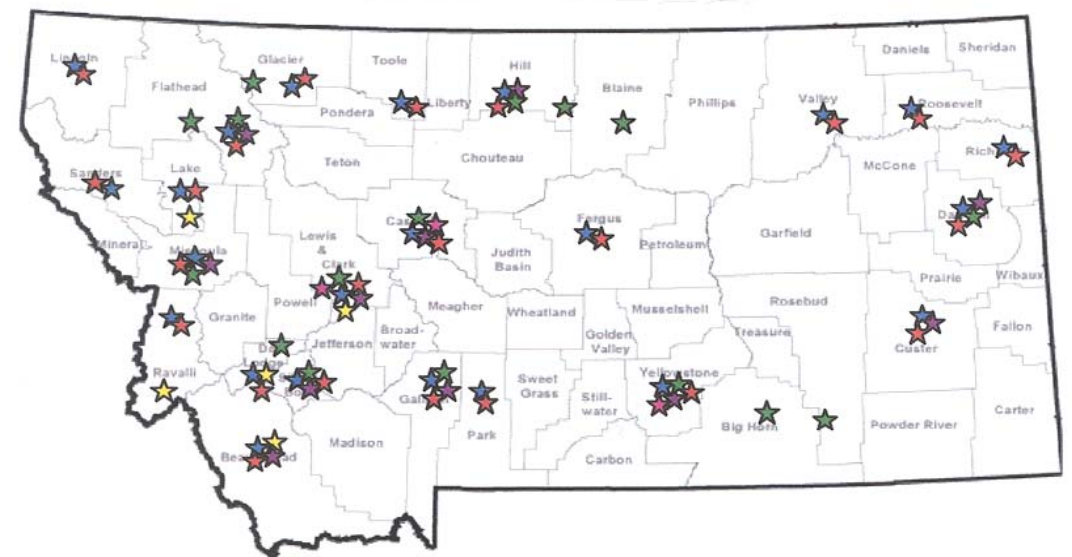

What is the State Workforce Investment Board?

The purpose of the Montana State Workforce Investment Board is to advise the Governor on the creation, implementation and continuous improvement of a comprehensive statewide workforce development system. The System includes both federal and state funded programs such as Job Service, Education, Apprenticeship and Training, Social Services programs, Veterans' services, and Business service programs such as Small Business Development Centers. In all, Montana has 32 programs designed to help Montana job seekers obtain jobs, and Montana employers improve their businesses and hire workers.

The Board adopted the following goals for 2004:

1. Engage the workforce system in anticipating and responding to businesses' current and emerging needs for skilled workers.
2. Encourage alignment among workforce development, post secondary education, and economic development.
3. Advance workforce development policies by providing recommendations to the Governor and other state leaders who support economic development efforts in Montana.

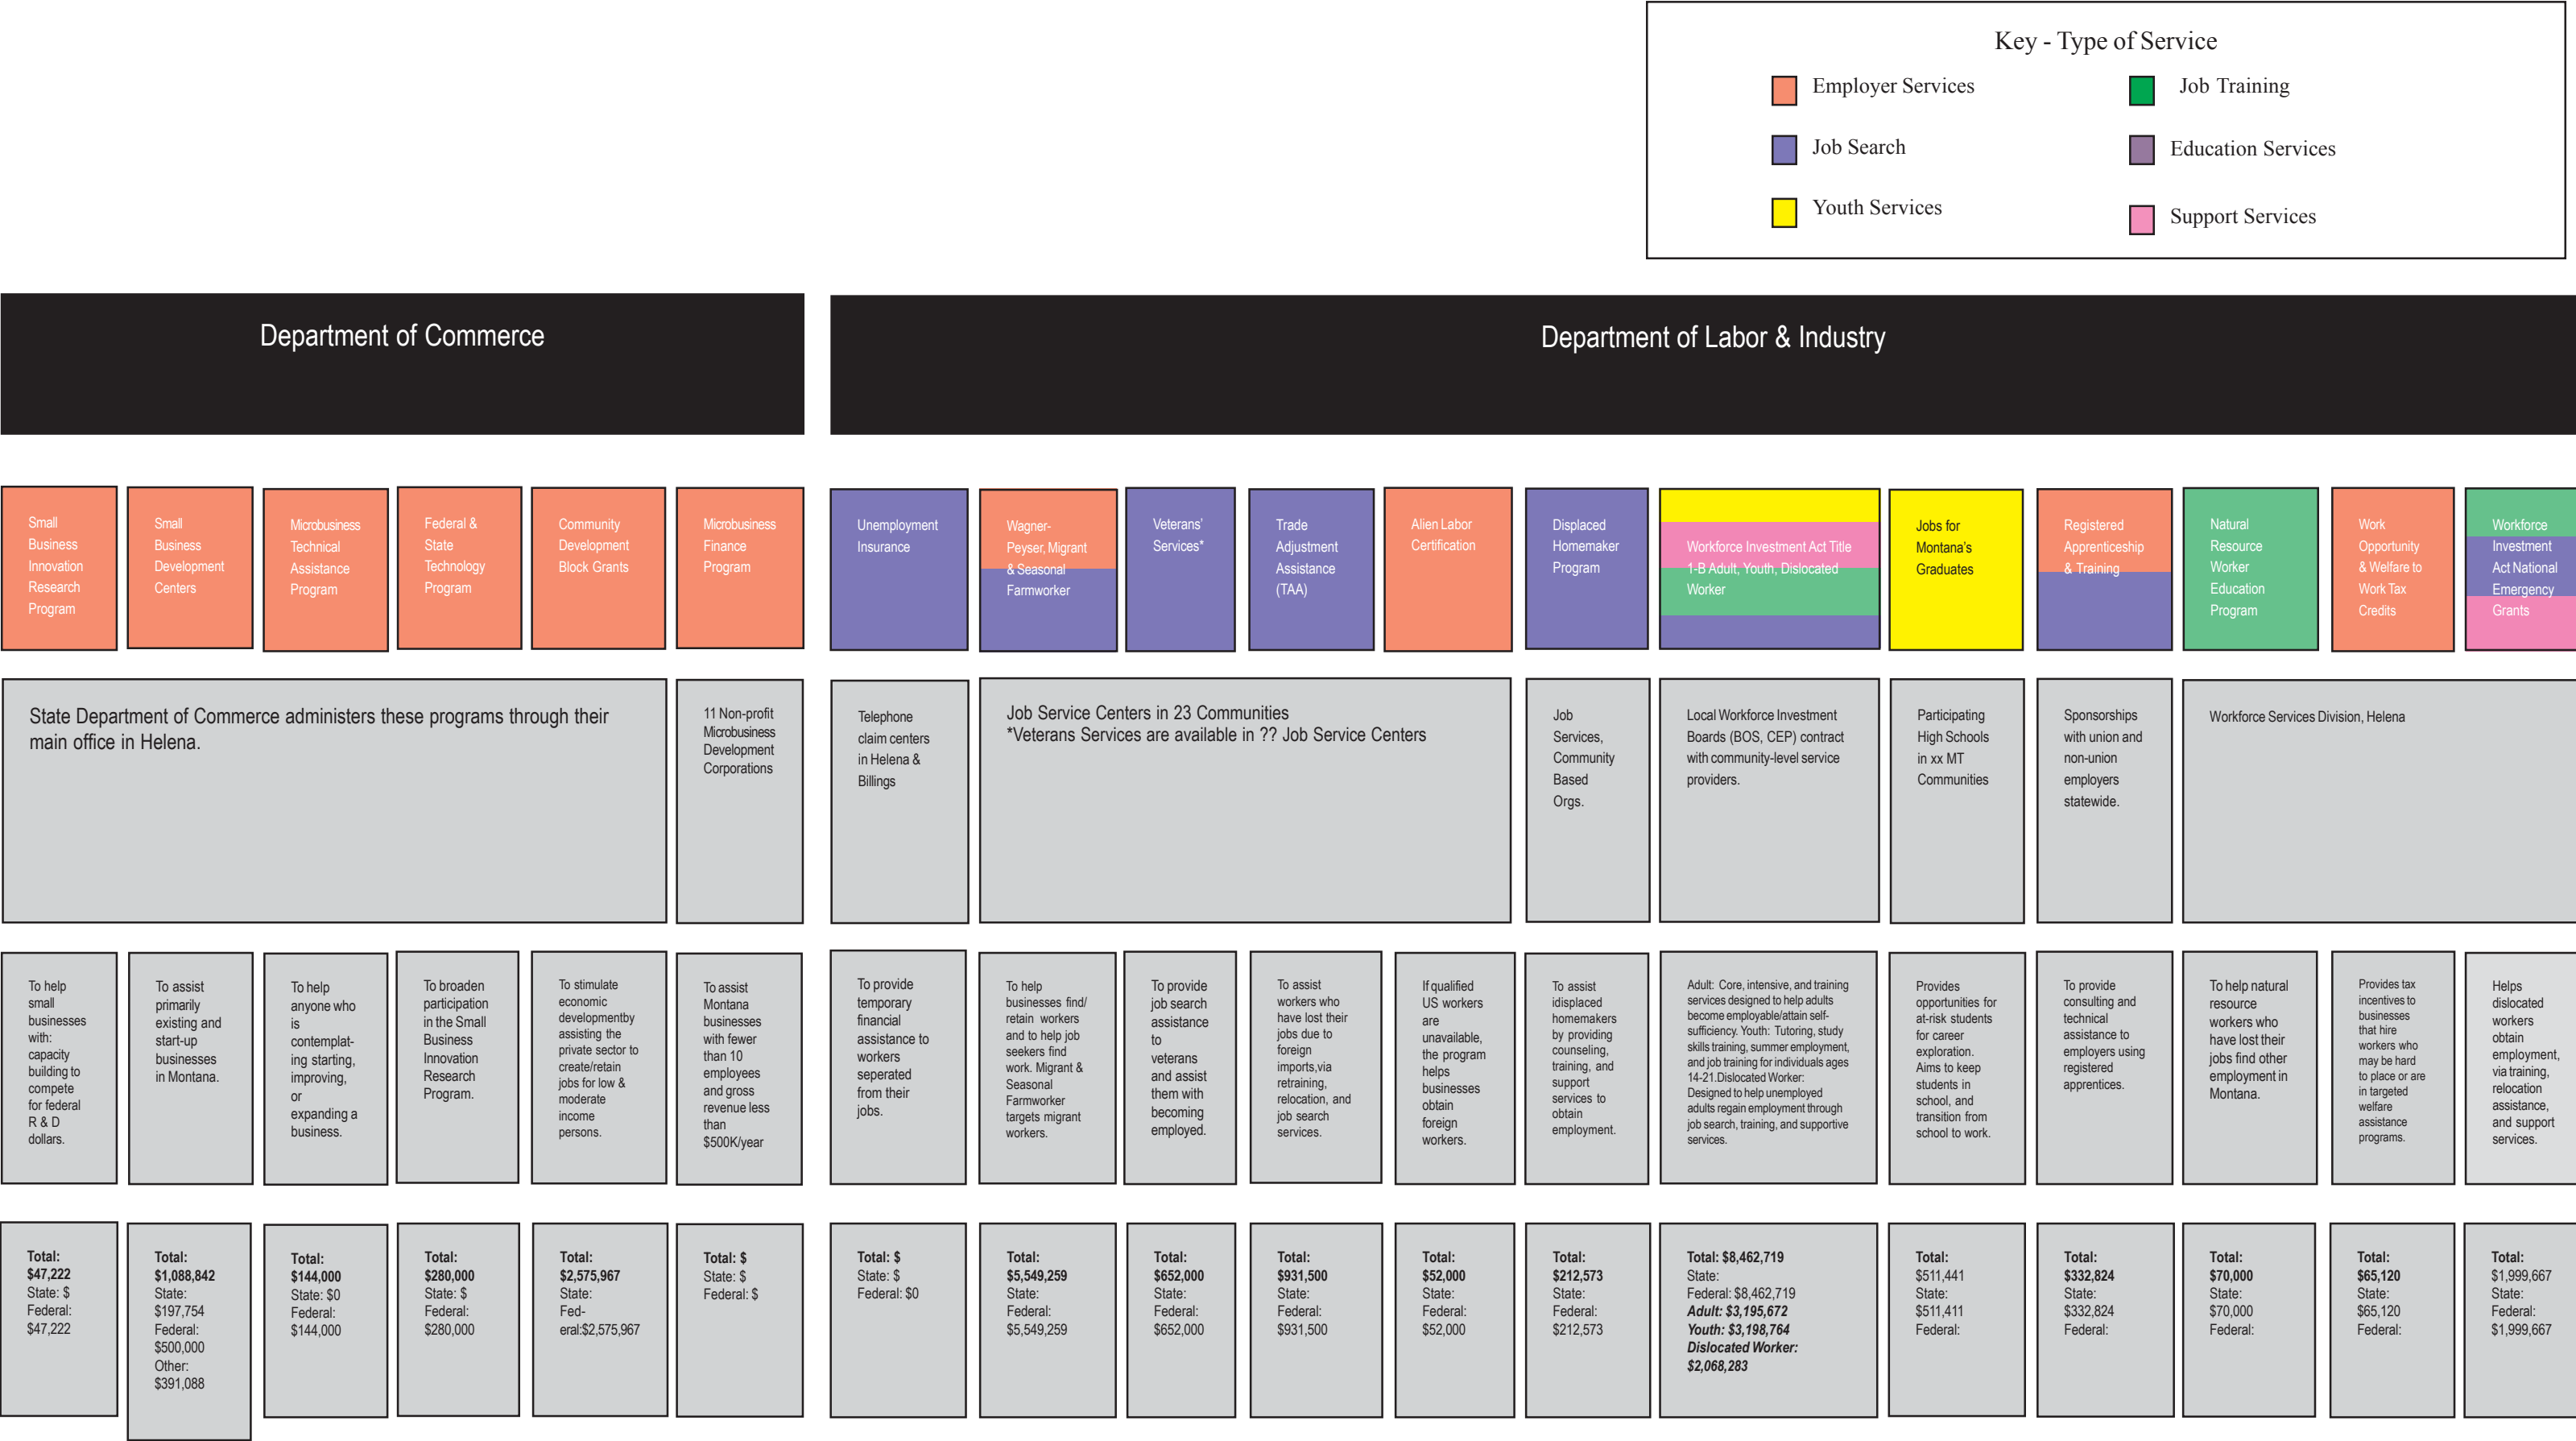

Where do Montanans access workforce development services?
